TRANSPORTATION PLANNING  
CONSULTANTS

Mr. Robert L. Vestal, PE  
Assistant Director of Public Works/  
Assistant City Engineer  
CITY OF BEAUMONT  
550 E. 1st Street  
Beaumont, CA 90638

**CHANGE ORDER: Signal Timing Plan Sheet Creation  
First Street and Beaumont Avenue  
City of Beaumont (BEA-23-001) (Change Order 1)**

Dear Mr. Vestal:

TJW Engineering, Inc. (TJW) has been working with the CITY OF BEAUMONT to prepare updated traffic signal timing sheets to accommodate changes in the traffic signal operations at the intersections of *Beaumont Avenue and Sixth Street* and *Highland Springs Avenue and First Street*. Recently, TJW was asked to prepare a signal timing sheet for *First Street and Beaumont Avenue*. TJW would review the proposed signal plans and prepare a new timing sheet to accommodate the changes to the signal phasing. Due to the short turnaround time to prepare the timing sheets, TJW would not be able to obtain the existing signal timing sheets. TJW would base the new signal timings on the 6<sup>th</sup> Street and Beaumont Avenue intersection timings. TJW would submit the timing sheets to the City for review and approval.

TJW is proposing to perform the work stated above for the amount of **\$800.00**. This letter can serve as a Memorandum of Agreement and our authorization to proceed with your signature below. If you have any questions regarding this project, please feel free to contact me at Thomas@tjwengineering.com or at (949) 878-3509.

Sincerely,

City of Beaumont

Approved by:
