## Descriptions

**American Rescue Plan Act/State of California – Grant**

California received over \$43 billion in combined recovery funds from the American Rescue Plan Act of 2021 to cover costs incurred between March 3, 2021, and December 31, 2024, to mitigate the impacts of the COVID-19 Pandemic, including \$27 billion in state fiscal recovery funds.

## **Bond**

Municipal bonds are debt securities issued by states, cities, counties, and other governmental entities to fund day-to-day obligations and to finance capital projects.

## **Carl Moyer Program – Grant**

California Air Resources Board provides monetary grants to private companies and public agencies to clean up their heavy-duty engines beyond that required by law through retrofitting, repowering, or replacing their engines with newer and cleaner ones.

## **Community Development Block Grant (CDBG)**

The Federal Department of Housing and Urban Development (HUD) provides annual grants on a formula basis to states, cities, and counties to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons.

## **Community Facility District (CFD)**

A Special Tax District provided in State Law that funds the installation of public improvements or ongoing services within an identified area. A special tax is levied on taxable property within the district boundaries.

## **Development Impact Fees (DIF)**

A one-time charge for new development is imposed under the Mitigation Fee Act. These fees are charged to new development to mitigate impacts resulting from the development activity and cannot be used to fund existing deficiencies.

## **General Fund**

The fund is used to account for most financial resources and activities governed by the normal appropriation process.

## **Internal Service Fund (ISF)**

A fund that accounts for goods or services provided to other internal departments on a cost-reimbursement basis. These funds are used to finance work done by internal services within the City, and they collect revenue by charging other departments for their services. This framework helps drive efficiency and reduce waste in the services provided.

### **Low Carbon Transit Operations Program (LCTOP) – Grant**

The California Department of Transportation (Caltrans) provides operating and capital assistance for transit agencies to reduce greenhouse gas emissions and improve mobility, with a priority on serving disadvantaged communities.

### **Local Transportation Fund (LTF) – Grant**

Through the California Department of Transportation LTF is derived from a ¼ cent of the general sales tax collected statewide. The State Board of Equalization, based on sales tax collected in each county, returns the general sales tax revenues to each county's LTF. Each county then apportions the LTF funds within the country based on population.

### **Measure A (Local Streets and Roads)**

The measure provides funding for major highway projects, passenger rail, public transit, motorist assistance, and local streets and roads throughout Riverside County through a half-cent sales tax.

### **PAYGO**

The use of annual and/or one-time special tax revenues to directly fund the acquisition, construction, or improvement of Public Facilities, or to fund other authorized costs of a District.

### **Prop 68 – Grant**

Proposition 68 authorized \$4 billion in general obligation bonds for state and local parks, environmental protection and restoration projects, water infrastructure projects, and flood protection projects.

### **Riverside County Transportation Commission (RCTC) – Measure A Regional Arterial (MARA)**

The Sales tax revenues derived from Riverside County's voter-approved 2009 Measure A program include a certain percentage of funding for Western Riverside County Measure A Regional Arterial (MARA). The 2009 Measure A Expenditure Plan includes funding to widen existing roads and construct new roads on the regional arterial transportation system in Western Riverside County.

### **Riverside County Transportation Commission (RCTC) - Regional Arterial (RA)**

The RCTC Regional Arterial (RA) funding is a voter-approved set-aside funding mechanism of \$135 million from Measure A and the Transportation Uniform Mitigation Fees (TUMF) for regional transportation projects in western Riverside County.

### **Riverside County Flood Control (RCFC) Cooperative Funding Agreement**

This funding is part of the Riverside County Flood Control and Water Conservation District Capital Improvement Plan.

### **State Homeland Security Grant Program (SHSP) – Grant**

The State of California through the County of Riverside Emergency Management Department (EMD) financially supports strategies to address planning, equipment, training, and exercise needs to respond to acts of terrorism or catastrophic emergencies and disasters.

### **Senate Bill 1– Road Repair and Accountability Act (RMRA)**

Senate Bill 1 (SB 1), commonly referred to as the Gas Tax, is the Road Repair and Accountability Act of 2017, which was approved by California's Legislature and Governor in April 2017 and reaffirmed by voters in November 2018. The Gas Tax generates funds for our transportation infrastructure through increased gasoline taxes and annual vehicle fees.

### **State of Good Repair (SGR) – Grant**

Provided through the Federal Transit Administration (FTA) capital assistance for maintenance, replacement, and rehabilitation projects of high-intensity fixed guideway and motorbus systems to help transit agencies maintain assets in a state of good repair in urbanized areas. Additionally, State of Good Repair formula grants are eligible for developing and implementing Transit Asset Management plans.

**State and Local Fiscal Recovery Funds (SLFRF) – Grant**

The American Rescue Plan Act was signed into law and established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Funds, which together make up the Coronavirus State and Local Fiscal Recovery Funds (“SLFRF”) program. These grant funds were appropriated through Senate Bill 21-292 for victim’s services programs and purposes related to populations who have been disproportionately negatively affected by the COVID-19 public health emergency. The funds were intended to decrease the impact of the pandemic including the loss of revenue that many agencies including non-profits experienced during the pandemic.

**State Transit Assistance (STA) Grant**

Funds are generated by a sales tax on fuel and diesel fuel. The amount of money available for transit agencies varies from year to year based on the ups and downs of diesel prices.

**Transportation Uniform Mitigation Fee (TUMF)**

A regional program that provides funding for transportation infrastructure in Western Riverside County, California. The program ensures that new development in the county pays for the increased traffic it

**TUMF – Pass Zone - Transportation Improvement Program (TIP)**

A comprehensive four-year regional spending plan for near-term transportation projects funded by TUMF.

**Trade Corridor Enhancement Program (TCEP) CA – Grant**

Funding for infrastructure improvements on federally designated Trade Corridors of National and Regional Significance, on California's portion of the National Highway Freight Network, as identified in the California Freight Mobility Plan, and along other corridors with a high freight movement volume. The Trade Corridor Enhancement Program will also support the goals of the National Highway Freight Program, the California Freight Mobility Plan, and the guiding principles in the California Sustainable Freight Action Plan.

**Trade Corridor Enhancement Program (TCEP) FED – Grant**

Provides funding for infrastructure improvements on certain federally designated roadways and other corridors that have a high volume of freight movement. It encompasses projects that contribute to the efficient movement of freight on corridors with high freight volumes.
