

City of Beaumont Fire Department

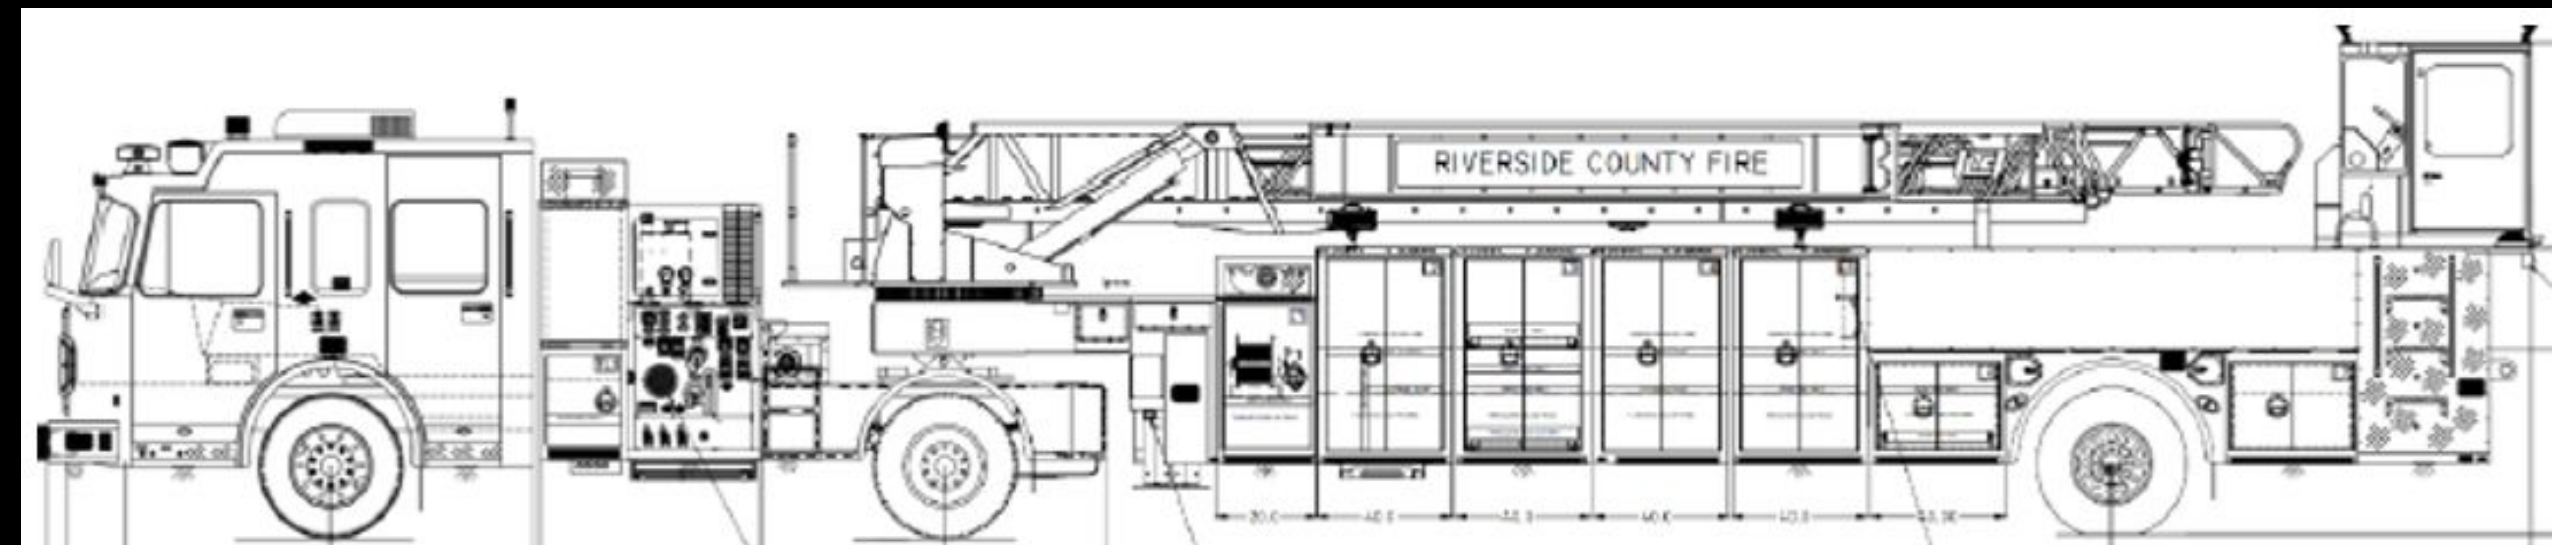

- Beaumont City Council previously approved the purchase of a Tractor Drawn Aerial truck (TDA)
- Riverside County Fire ordered the TDA for Beaumont to meet the department specifications for the equipment to be carried and the type of operations the vehicle is used for.
- Riverside County Fire was contacted by FAS about a TDA that a department ordered and decided not to go through with the purchase. Riverside County Fire was asked if the department would be interested in purchasing.
- The apparatus and equipment committee compared our specifications to the new build. The new build was within our specifications, but did need some minor modifications and had a few differences in design.
 - Design differences such as using roll up doors verses compartment doors.
 - Modifications such as changing seats for clean cab environment and the emergency lighting package.
- The apparatus and equipment committee agreed that the TDA will meet the department specifications.

- With the TDA meeting the specifications, Riverside County is planning on making the purchase of the TDA.
- Riverside County Fire Department is giving the City of Beaumont the first opportunity of this TDA and is seeking the approval of the City of Beaumont to accept this TDA with the following stipulation.
 - No cost increase to the city.
- TDA expected delivery from the manufacturer would be Fall 2025.
